

## Sewing Machine Mechanics Facilitator

### Company Description

Thandeka Vocational Education Trust (Pty) Ltd (Thandeka) is an accredited Skills Development Provider that manufactures change through skills development interventions such as learnerships, skills programs, and tailored short interventions.

### Role Description

Thandeka is seeking an experienced Sewing Machine Mechanic Facilitator to join our team. The ideal candidate will have a strong technical background in sewing machine mechanics, combined with facilitation skills to effectively train and support learners. This role involves delivering both practical and theoretical training, guiding learners through their coursework, and ensuring administrative tasks are completed efficiently.

### Location

Based in Cape Town

### Key Responsibilities

- Deliver practical and theoretical training in sewing machine mechanics.
- Support learners throughout the training programme to help them develop essential industry skills.
- Ensure accurate record-keeping and assessment uploads on the Learning Management System (LMS).
- Maintain learner engagement and provide guidance on industry best practices.
- Work with a variety of sewing machine types, ensuring comprehensive technical training.

### Qualifications & Requirements

- London City & Guilds Advanced Craft Certificate in Sewing Machine Mechanics (required).
- Additional formal qualifications through the Clothing Industry Training Board (advantageous).
- Minimum 10 years' experience in the clothing and textile industry, working with diverse machine types.
- Facilitation experience is highly advantageous.
- Additional relevant certifications in sewing machine mechanics are a plus.
- Computer literacy is essential for managing assessments and LMS uploads.

### Industry

- Technical and Vocational Training

### Employment Type

- Full-time

### How to Apply

Interested candidates can apply by submitting their CV to [hr@thandeka.org.za](mailto:hr@thandeka.org.za)
